

## **EWGA Mentoring Program**

### **What are the benefits?**

There are benefits for both the mentor and mentee. Mentors get a chance to share their knowledge of golf and gain the satisfaction and reward of helping a new golfer get hooked on this game we all love! Mentees gain the opportunity to learn from an experienced golfer on the golf course. They also have a "buddy" to ask questions throughout the golf season.

### **How does it work?**

The mentor program starts after the Spring Kick-off (~~April 2008~~) and continues throughout the golf season, as their schedule permits. We match a mentor with a mentee and they will contact each other to arrange a time to talk/meet up. They will then arrange a time to golf at one of our member golf courses and start sharing and learning ! Mentors and mentees will take it from there to arrange subsequent times to golf according to their schedules. The mentor becomes a golf "buddy" that the mentee can reach out to throughout the season with questions about the EWGA or golf.
